The theme of the CHTF is "Transforming the Future with Development" at its heart. The fair, which was held in Shenzhen, China, from November 11 to 15, 2020, is known as CHTF 2020. As a bright business card, it showcases the latest technologies, innovations, and developments that are shaping the future.

From November 11th to 14th, exhibitions were held in the Shenzhen Convention & Exhibition Center. The theme of the fair was "Future, Connected World," highlighting the importance of technology and connectivity in shaping the future. The fair aimed to attract more Chinese technology enterprises to local and global markets.

Representative reports were released, covering various aspects of the fair. These reports provided an overview of the participating professionals, exhibitors, and other characteristics that contributed to the success of the event.
